Hank Petro Maintenance Facility

The Saint Paul PHA held a brief ceremony on January 8, 2014 dedicating its maintenance facility at McDonough Homes as the "Hank Petro Maintenance Facility". The PHA recognized Hank's 47 years of dedicated service to the PHA and its residents. Hank has been the PHA's Maintenance Director since 1995.

St. Paul Mayor Chris Coleman signed a proclamation declaring January 22, 2014 to be "Hank Petro Day" in the City of St. Paul.

PHA Completed New Construction of 6-plex Townhomes at Roosevelt Homes

The PHA has completed the construction of a new rowhouse building at Roosevelt Homes. The new six-plex contains five 2-bedroom dwelling units with full basements and one two-bedroom single-level dwelling unit that is fully accessible for persons with disabilities. Construction began April 2013 and was completed in December 2013.

This new building restores the number of dwelling units at Roosevelt Homes to the original count of 320. These new units will help to house some of the approximately 3100 families that are currently on the PHA's 2-bedroom waiting list for public housing. The waiting list totals over 9000 households. The first residents to move into the new six-plex signed their leases on January 27, 2014.
